

Project Submission Instructions

Please follow the steps below for submitting each project:

1. **Create a Folder**

Name the folder Project# (replace # with the appropriate project number).

2. **Save Your Code**

Write and save your Python code inside the folder.

3. **Review Requirements**

Ensure the project meets all description and requirements provided in the assignment.

4. **Include Required Files**

Add any necessary data files (if applicable) to the same folder.

5. **Do NOT Include Executables**

Do not include any .exe (executable) files.

6. **Zip the Folder**

Compress the entire Project# folder into a single .zip file.

7. **Email the Submission**

Send the zipped folder to the instructor.

Email Submission Details

- **To:** mally@austincc.edu
- **Subject Line:** COSC 1336 (DL) – Project#

Be sure to follow all submission guidelines carefully in order to receive full credit for your work.
