Attached are the requirements and Start-file for Project #5

Project Submission Instructions

Please follow the steps below for submitting each project:

1. **Create a Folder**

   Name the folder Project# (replace # with the appropriate project number).

2. **Save Your Code**

   Write and save your Python code inside the folder.

3. **Review Requirements**

   Ensure the project meets all description and requirements provided in the assignment.

4. **Include Required Files**

   Add any necessary data files (if applicable) to the same folder.

5. **Zip the Folder**

   Compress the entire Project# folder into a single .zip file.

6. **Email the Submission**

   Send the zipped folder to the instructor.

Email Submission Details

   To: mally@austincc.edu
   Subject Line: COSC 1336 (09) – Project#4

Be sure to follow all submission guidelines carefully in order to receive full credit for your work.
